1. Evening Matches Overall total weight from all four matches
2. Match Series - Best 6 from 8 matches to count
3. Silver Fish Only - Waggler, running line only (or any method at discretion of Match Sec.)
4. Hangover - Bring a bottle
5. Pole Whip Only - short line or to hand using pole or whip - any species
6. Points Only Match - 1 fish = 1 point - any species & fished as Pairs if numbers permit.

Matches have been concentrated. One bank may be used for a match.

The opposite bank may be pleasure fished during a match. Confirm with the match sec. *Committee*

Weed is a major problem - ledger/feeder fishing is a lottery. Heavier tackle is not the solution. All baits are hidden by the extensive weed banks, so fish find them by chance. We are unable to keep on top of the rampant weed spread.

- We suggest members use a weed-rake, on a rope, to clear as much weed in front and to the sides of your swim as possible and fish short.
- Rake out the weed prior to setting up and fishing. Up to 3 rod lengths out?
- Raked weed to be removed from the water and deposited into bushes away from the swim. **Do not leave weed on the swim.**
- By disturbing the bed you will draw in fish looking for natural food. Disturbance will settle by the time you set up and are ready to fish.
- You can feed and cast to the cleared zone with a short feeder/ledger rod or float fish..... and catch?
- Ebay has Gardner Tackle multi-rakes listed (c. £20).
- You may want to create your own using 2 garden rakes? Martin Bowler did a Youtube video....<https://youtu.be/8rOM55xwwc> Thanks.
